1.0 GENERAL INFORMATION

1 GENERAL INFORMATION

1.1 System Overview

The Office of Inspector General (OIGCSS) currently receives, tracks, and responds to complaints of fraud, waste, mismanagement, and misconduct submitted by the general public and government employees via e-mail, phone, letter, and in person; it then stores this information in a Microsoft Access database. To standardize and improve the quantity/quality of the information provided, this new online OIG application provides the following features:

- Provides a single entry point for reporting complaints
- Standardizes the complaint data that is collected
- Conforms to SBA's look and feel standards
- Fulfills the new statutory requirement for an anonymous reporting link

OIGCSS is run, housed, maintained, and supported by OCIO.

1.2 Authorized Use Permission

This is a Federal computer system and is the property of the United States Government. It is for authorized use only. Users (authorized or unauthorized) have no explicit or implicit expectation of privacy in anything viewed, created, downloaded, or stored on this system, including e-mail, Internet, and Intranet use. Any or all uses of this system (including all peripheral devices and output media) and all files on this system may be intercepted, monitored, read, captured, recorded, disclosed, copied, audited, and/or inspected by authorized Small Business Administration (SBA) personnel, the Office of Inspector General (OIG), and/or other law enforcement personnel, as well as authorized officials of other agencies, both domestic and foreign. Unauthorized use of, or exceeding authorized access to, this system is prohibited and may constitute a violation of 18 U.S.C. § 1030 or other Federal laws and regulations and may result in criminal, civil, and/or administrative action. By using this system, users indicate awareness of, and consent to, these terms and conditions and acknowledge that there is no reasonable expectation of privacy in the access or use of this computer system.
